Product description

- Designed especially for gaming, this Nano IPS display features vibrant color, contrast, clarity, and detail, while delivering ultra-fast 1ms (GtG) response rates
- With HDR10 support and color performance with 98% coverage of the sRGB spectrum, you'll see the game as the developers intend, with accurate and vivid color
- A high native 144Hz refresh rate with 1-millisecond Motion Blur Reduction keeps you firmly in the action while reducing blur and ghosting, rendering screen objects more clearly
- With compatible video cards, NVIDIA G-SYNC virtually eliminates screen tearing and minimize stutter in high-resolution and fast-paced games for a fast and fluid gaming experience
- Dynamic Action Sync helps reduce input lag to help you respond to on-screen action quickly. Black Stabilizer dynamically brightens dark scenes to help you find enemies in the dark. Enhance your accuracy in firefights with the Crosshair feature
